

JOINTING CUTTER WITH REPLACEABLE KNIVES LEUCO „SMARTJOINTER airFace“

LEUCO
smart
jointer airface

Light weight aluminium body

- | less energy consumption
- | less wearing of machine parts

No adjustment of the machine after change of inserts

- | easier for the machine operator
- | reduces machine down time

Flexible & time saving

- | individual change of inserts possible
- | **LEUCO Tip:** it is possible to replace tooth rows already worn from cutting the top layer with rows from the core layer.
- | independent replacement of inserts
- | No need to send to the service center
